

DESCRIPTION

The **SBA-118** is a compact very high output permanent installation sub-bass loudspeaker employing an 18-inch long-excursion driver in an optimally tuned vented enclosure. It is an ideal choice for applications requiring precise transient response and low bass extension in a compact very high output package.

The **SBA-118** is frequently employed as a single unit, or it can be used in multiples to create cardioid bass arrays. It's compact size fits well under stages, on stage and dimensionally matches the HLA20 in flown arrays.

KEY FEATURES:

- compact size
- bass extension to 27Hz
- very high output
- low power compression
- excellent transient response
- component for use in cardioid arrays

APPLICATIONS:

- auditoriums
- churches
- performing arts centers
- theaters
