

## Powered Installation Sub-Woofers

The **SB-118P** is a very compact powered sub-bass module with on-board PowerSoft amplifier & DSP, designed for permanent installation. It employs a 18-inch long-excursion driver in an optimally tuned vented enclosure which can be suspended from internal fly points or positioned on the floor.

The **SB-118P** is an ideal choice for applications requiring precise transient response and low bass extension. Its compact size fits well under stages, on stage, and in flown arrays.

(shown with grille removed)

### Key Features

- Compact size
- Bass extension to 28 Hz
- 1500W Class D Power
- Excellent transient response

### Applications

- Churches
- Performing Arts Centers
- Cinema
- Night Clubs

### Description
