True Sound Engagement in Challenging Acoustics

DESCRIPTION

The **CLA-2035** is a twenty element J-array loudspeaker. It has twenty 3.5" mid-frequency drivers and twenty ribbon high frequency drivers. The CLA-2035 has been optimized for speech applications in acoustically challenging spaces. It can also serve as an articulation extender in large scale sound systems.

The **CLA-2035** has been preconfigured in an asymmetrical 35° V by 120° H coverage pattern with vertical directivity to 275 Hz, and low frequency response to 100 Hz.

When it is combined with an Innovox SDLF Series steered bass array, bass response is extended below 50 Hz, creating a high impact, full range music system.
